

Amendments to the Claims

Please cancel Claims 7-31. Please amend Claim 1. Please add new Claims 32-37. The Claim Listing below will replace all prior versions of the claims in the application:

Claim Listing

1. (Currently Amended) A golf practice putting device comprising:
a first member having an opening approximately the size of a regulation golf hole;
a second member having a surface area larger than the opening on the first member, the second member having adhesive properties on a top surface, the first member affixed to the adhesive top surface of the second member with the opening exposing the adhesive properties of the second member, such that a golf ball putted towards the device can adhere to the adhesive top surface of the second member;
wherein the second member includes a front end, a rear end, a bottom surface, and a top surface, the front end and the rear end creating an angle with respect to the bottom surface and the top surface.
2. (Original) The device of Claim 1, wherein the first member is comprised of a material selected from the group consisting of plastic, cardboard, metal, and paper.
3. (Original) The device of Claim 1, wherein the adhesive properties of the second member are similar to tacky-type tape, such as duct tape.
4. (Original) The device of Claim 1, wherein the thickness of the device is in a range of approximately 0.015 inches to 0.035 inches.
5. (Original) The device of Claim 1, wherein the golf ball putted towards the device adheres to the adhesive top surface when the golf ball is putted with a correct speed.

6. (Original) The device of Claim 1, wherein the first member and the second member have a substantially flat surface area.

32. (New) A golf practice putting device comprising:

a first member having an opening approximately the size of a regulation golf hole;
a second member having a surface area larger than the opening on the first member, the second member having adhesive properties on a top surface, the first member affixed to the adhesive top surface of the second member with the opening exposing the adhesive properties of the second

member, such that a golf ball putted towards the device can adhere to the adhesive top surface of the second member; and

a third member, the third member includes a front end, a rear end, a bottom surface and a top surface, the front end and the rear end creating an angle with respect to the bottom surface and the top surface.

33. (New) The device of Claim 32, wherein the first member is comprised of a material selected from the group consisting of plastic, cardboard, metal, and paper.

34. (New) The device of Claim 32, wherein the adhesive properties of the second member are similar to tacky-type tape, such as duct tape.

35. (New) The device of Claim 32, wherein the thickness of the device is in a range of approximately 0.015 inches to 0.035 inches.

36. (New) The device of Claim 32, wherein the golf ball putted towards the device adheres to the adhesive top surface when the golf ball is putted with a correct speed.

37. (New) The device of Claim 32, wherein the first member and the second member have a substantially flat surface area.
